

EXPRESS WARRANTY

SERVICE ADDRESS:

This document certifies that Pure Maintenance Golden State has treated the service address indicated above with our Patented, Mold-Denaturing and Protecting process. The work was completed on _____. We warrant that if the entire living/working space was treated and if moisture levels are normal, no new mold contamination will occur in the treated living/working spaces for a period of one-year or we will re-treat then re-test at no charge.

We also warranty that when the living/working spaces we treated are tested with a Via Cell air sample within 48 hours following your treatment, the amount of live and dead mold inside the treated living/working areas will be lower than the levels of live and dead mold outside. If, in the rare event, the treatment and lab test reports do not yield results as described above, we will re-treat then re-test the living/working space at no charge. If after the re-treatment, the inside test report shows the amount of live and dead mold inside the living/working space was greater than the amount of live and dead mold outside, 100% of the cost of the treatment will be refunded.

If this document is exercised by the holder within one-year after the treatment date, see Terms and Conditions Section 2.2 for full details. We reserve the right to obtain our own test results. See issues that void this warranty in the same section of the terms and conditions noted above. Test failure from hidden mold is not covered. Crawl spaces, attics, and garages are also not covered. This warranty is fully transferable.
